PROFESSIONAL PROFILE

Industrial Design master's graduate with experience in automotive interface design projects for Japanese OEMs and digital platform UI improvement projects. Led interface proposals, revisions, and design handoff for new features in existing products. Contributed to design systems, component creation and maintenance, design guidelines, and tutorial illustrations. Experienced in interface design across device sizes and day/night modes. Familiar with cross-functional and engineering collaboration, balancing user needs, visual quality, and implementation feasibility.

PROFESSIONAL EXPERIENCE

Garmin **UI Designer, Automotive** Jan–Jun 2026 Part-time, 5 days/week

Contributed to Japanese OEM motorcycle and automotive navigation, infotainment, and feature UI projects. Collaborated with designers and software engineers on interface rules, asset delivery, technical feasibility, and final design reviews.

MobiWebX **UI/UX Designer** Mar–Aug 2024

Improved a cloud-based development platform through user-flow reviews, page structure, and UI guidelines. Collaborated with engineers on design handoff and supported visual design for COMPUTEX 2024.

Lixin Construction **Graphic Designer, Remote** Sep 2022–Aug 2024

Independently delivered branding and property-marketing visuals, from project requirements to production and cross-media applications.

EDUCATION

Tatung University M.Des. in Industrial Design (2023–2025); B.Des. in Industrial Design (2019–2023)

Chiba University Exchange Student (Sep 2024–Mar 2025)

SKILLS & TOOLS

Design UI Design, Design Systems, Multi-screen UI Adaptation, Design Handoff

Tools Figma, Illustrator, Photoshop, Webflow CMS, SPSS

RESEARCH & ADDITIONAL

Graduate research

During master's studies at Tatung University's Human Factors & Ergonomics Lab (2023–2025), contributed to NSTC research proposals and TDRI industry–academia research through interviews, surveys, and data analysis.

Languages

Mandarin (native), English (TOEIC 710), Japanese (JLPT N3)

Honors

Best Paper Award, Chinese Design Association (2025); KYMCO Transportation Design Challenge, Merit Award (2022); Google UX Design Certificate
